ANNOUNCEMENT

SUBJECT: Screening Mammograms Available

The George Washington University Mammovan will be at the Goddard Space Flight Center's Health Unit parking lot on Tuesday, February 24, 2004. Eligible Goddard civil service employees must call (202) 741-3020 to schedule an appointment.

You are eligible if:

- 1) You are 35 years or older. The George Washington University Mobile Mammography Programs prohibits more than one screening mammography for women between the ages of 35-39 and requires a full 12 months between annual mammograms for women over 40.
- 2) You do not have a personal history of breast cancer.
- 3) You do not have any breast pain or nipple discharge.
- 4) You do not have breast implants.
- 5) You have not given birth or breast fed within the last 6 months.

The Mammovan is accredited by the American College of Radiology and is certified by the FDA to perform screening mammograms. Since mammogram films are compared with previous mammograms to ensure stability in the breast tissue, you must bring your last mammogram films to your appointment, OR have the facility which houses them mail them directly to:

George Washington University Medical Center
Breast Care Center
2150 Pennsylvania Ave., NW
Suite DC-123
Washington, DC 20037
ATTENTION: Lynn Turner

Remember: Call (202) 741-3020 to schedule an appointment. For more information, call the Health Unit at x 6-6666.

Teresa Spagnuolo
Teresa Spagnuolo
Chief, Safety and Environmental Division
